Carnegie on the Results.

Mr. Andrew Carnegie, who is prestident of the Peace Congress, to-night gave out a statement as to the results of the congress just closed.

Although not so designated by Mr. Carnegie, the statement constitutes a reply to some of the suggestions contained in the letter which President Roosevelt adversed to the congress on its opening dressed to the congress on its opening day. Mr. Carnegie quotes these state-ments as "objections," and proceeds to

It is the first principle of justice that men shall not be judges in their own cause; to refuse to submit to judge or arbitrator is unjust, hence not right, for the essence of righteousness is justice. Our pressing duty is to extend its benignant reign to combinations of men called nations. What is right for each individual must be right for the nation. Mr. Satterfield (was unable to cope with President Turpin as a parliamentarian, and Mr. Dabney rushed into the breach and took up the struggle. President Turpin ruled that it was not possible to reconsider legally and concur in the action of the Common Council without reconsidering and retracing, step by step, every action heretofore taken. He directed the clerk to record the exact language of the various motions and amendments.

Mr. Dabney and others took Issue with the chair, who reminded the Board that the clerk could not possibly straighten out the tangle into which the Board had been drawn.
